1

Book your free design appointment

Virtual or in store, it's your choice. Book your appointment at [wickes.co.uk/designconsultant](https://www.wickes.co.uk/designconsultant), call us on **0800 011 3031** or drop into one of our stores.

2

Gather your ideas

Think about what you'd love and what you need in your new bathroom. You can follow us on Pinterest and Instagram to find inspiration.

3

Free home consultation

Meet with your Design Consultant virtually or in person to discuss your ideas and how to make the best use of your space.

4

See your new bathroom in a 360° tour

We'll arrange a meeting, either virtually or in store, to reveal your tailor-made 360° virtual bathroom design and demonstrate your chosen products.

5

Place your order

Once you decide to buy, we can talk you through our flexible payment options.

6

Meet your installer

Your installer will visit to do a technical installation survey and double check everything is in order. If you choose your own installer, we'll meet with them to ensure things run smoothly.

7

Agree your delivery date

We'll arrange delivery and schedule your bathroom installation (if you've chosen our Wickes installation service).

8

Be prepared

Empty out your old bathroom and clear an area in your home for your new bathroom delivery.

9

Watch your bathroom transform

Now the exciting bit! We'll remove your old bathroom and dispose of it in a professional way, then start installing your new bathroom.

10

Enjoy your new bathroom

Once your bathroom has been installed, we'll contact you to check you're happy with everything.

Your trust.

Our installers.

We can take care of everything from plumbing and tiling to electrical work. We interview, and regularly check the work of, each of our Wickes-approved installers, so you can be confident you've got the right person for the job.

Enjoy peace of mind. Wickes will manage your project and sort any issues along the way

Our experienced installers will fit your bathroom to the highest standard, whilst adhering to additional safety measures we've put in place. So you can relax knowing that your bathroom is in safe hands.

Get set before you start. We'll complete a full technical survey before your job begins

If you choose to use our Wickes-approved installers, they'll visit you in advance to carry out a detailed technical survey and discuss any extra work that needs doing, like electrics or plumbing.

Feel reassured. Our service includes the professional disposal of your old bathroom

Before we install your new bathroom, we'll remove your old one as part of our service, making sure that it's disposed of in a professional way.

Relax. Enjoy a 2 year workmanship guarantee on top of your bathroom guarantees

We want you to be completely happy with your installation, knowing that everything has been fitted safely and correctly. Once it's been installed, we'll provide you with a 2 year workmanship guarantee on top of any product guarantees.

If you choose your own installer, we'll still meet with them to ensure things run smoothly

We would always recommend you use one of our installers. But, if you would prefer your own fitter or builder, we are more than happy to speak with them, to go over the plans and any details, once you've placed your order. We'll do all we can to make your bathroom fitting go as smoothly as possible.

The Institute of Customer Service – the independent, professional membership body for customer service - has awarded our installation team ServiceMark with distinction following top marks from 90% of Wickes customers they surveyed.

Industrial

Rimini vintage oak bathroom furniture has the look of reclaimed wood, which inspires this turn of the century industrial design, perfect for city living. Black accents feature heavily with taps, shelving, shower and shower screen. The industrial theme is completed with large format tiles and textured painted walls.

Green Park

The rich greens of the Duarti By Calypso Highwood bathroom furniture provide inspiration for this opulent look. A mixture of contemporary products with a rich traditional decorative scheme gives the luxurious feel of a hotel bathroom in your home. A sanctuary combining shades of green with black, white and bronze finishes.

Mediterranean Farmhouse

This warm, characterful farmhouse-inspired bathroom uses a combination of natural light and cool eucalyptus tones to create a calming space where you can refresh and re-energise. The addition of plants and a reed diffuser to the room, mixed with the Retro Green of the Vitra furniture, make this bathroom a real oasis.

Urban Earth

New

This wet room, with accents of anthracite, is a warm, sophisticated room with contemporary accessories and a high end edge. The star feature is the Abacus showerwall, which has been finished with a wood effect tile for an urban look. The design is completed with the Tallinn marble double vanity with black Vitra washbowls.

Metropolis

Boutique hotel meets retro chic in this sophisticated, sumptuous bathroom. Silky textures and smooth curves, inspired by rippled water, create a soft sanctuary where any stresses can be washed away. Moulded furniture handles and rounded cupboard doors continue the flow, while matt greys sit beautifully against mint greens.

Modern Marble

Cool marble is a hot trend making a welcome comeback in traditional and modern bathrooms. Give your makeover a touch of luxury hotel chic with large matching wall and floor tiles. These don't just look great, they help make the room feel larger than it is. Combine with warm or cool paint tones to create the look you love.

Compact Culture

A compact space doesn't mean you have to compromise on style. We can help you make the most of what you have, with a range of space-saving solutions - from basin and toilets to baths and storage. The secret to compact living is choosing products that double up - such as a mirror with integrated lighting.

Mint Condition

If you love the idea of a pop of colour, how about bright, fresh mint? It has all the positives of a neutral bathroom with a modern, yet classic, twist. You can team it with other natural colours and textures or, for a taste of Miami Beach, introduce Art Deco colours such as pale pink or cream. This herringbone tile pattern adds a further layer of interest.

Shades of Grey

Grey's popularity just seems to grow and grow. A versatile colour that goes with everything, it can make a bathroom feel industrial, on trend or classically traditional. Large format tiles are extremely popular right now. Not only do they give your floors and walls an ultra modern feel, they help make the room feel bright and spacious.

Forest Luxe

Add a touch of nature to your bathroom with this increasingly popular combination of dark green paint and leafy house plants set against bright white tiles. Calming, charming and serene, it works equally well with a traditional bathroom as it does a modern one. And why not keep the nature theme going by incorporating wood to help you relax and unwind?

Elegant Country

For a light and bright bathroom, go for warm neutral tones and natural textures. These versatile colours look as good in a practical, modern family bathroom as they do in a more stylised country setting. Whatever furniture you choose, you know it will work. Dress up or dress down, you can't go wrong.

Super Natural

Bring the outdoors in with natural materials and textures - a look that's on trend. Wood and stone complement one another beautifully, as they do in the natural world. This oak finish provides warmth to floors and furniture, while these large stone effect tiles add texture and drama. Complete the look with chrome fittings and neutral paint tones.

Out of the Blue

Classic blue is making headlines for all the right reasons. It looks stunning against any white bathroom suite. Leave it as the sole colour in the room or team it with equally bold tiles. If you've avoided darker colours, it may be time to think again.

Monochrome Deco

A confident colour combination, black and white is simple, elegant, luxurious and versatile. It works just as well in a traditional cloakroom as it does in an ultra modern bathroom. Keep it classic with metro tiles or stamp your personality with a patterned monochrome tile. Chrome complements this palette beautifully, and you can't go wrong with mirrors.

Our experience of planning and buying a bathroom from Wickes was great. It was easy to arrange an appointment with Wickes Customer Services and at our appointment, our designer was absolutely spot on with all the advice and the products he advised us to buy. We had a fair idea of what we needed however, he was able to suggest waterproof flooring to add to the bathroom design. Thank you!

Mel Craig

Disabled bathroom conversion from outdated, poorly designed and hard to maintain wet room into a modern bathroom with a walk-in shower, comfort toilet, large vanity unit, extractor fan, downlights, fully tiled walls and wood floor etc suitable for a disabled person with very limited mobility. Excellent design and professional installation.

Derek, Waterlooville

Just had my bathroom totally refitted from ceiling to floor. The experience from store to the fitter was excellent. Really pleased with the quality of the fittings, bathroom looks fantastic just like it looked in the showroom. But can't emphasise how good the fitter was. He was really friendly never stopped working from morning till night, his quality of work is excellent. Top marks

Wetrooms

From waterproofing to water pressure, talk to us about your wetroom project

12mm wall boards - perfect substrate for tiling which unlike plasterboard will insulate and waterproof

Recessed storage unit - fully waterproof, these come pre finished or can be tiled

Tileable shower seat - made from the same material as the wall and floor boards

High capacity drains - available in coloured finishes or tileable

Underfloor heating - feels great underfoot and eliminates moisture where it lingers most

Air extraction fans - quickly clear moisture and eliminate condensation

Pro seal jointing tapes & adhesive - creating a perfect waterproof barrier behind tiles

Wetroom tray formers - high capacity water drainage and pre formed falls ensuring an easier installation

10mm floor boards - an alternative to plywood and recommended to use when under floor heating is added

Waterproof your whole bathroom

Mix and Match Shower Kits

BRISTAN

Select from the options below to create a shower system that is suited to your style.

Choose Your Valve

Thermostatic controlled recessed shower valve. Min 0.2 bar, Max 5.0 bar pressure. Choose the diverter option if you would like to have a fixed head and a riser rail kit. It will give you the ability to alternate the flow of water between the 2 while in the shower.

Dual Fuel

Dual fuel towel radiators offer you the flexibility to have towel rails on when the main central heating system is switched off, giving you warm, fluffy towels all year round. Choose the appropriate heating element for your towel radiator from our selection.

It is important to choose the correct size element for your towel radiator. This chart should help you with your selection:

Towel Radiator	Suitable Element
Up to 359W	200W
360 - 479W	300W
480 - 719W	400W
720 - 959W	600W
960 - 1199W	800W
1200W+	1000W

Non-Thermostatic Set Up

- Can be used in the summer when the central heating is switched off
- Pipes do not need to be off set
- No need to use a T piece
- Clean, neat look
- See next page for valves and elements

Thermostatic Set Up

- Can be used in the summer when the central heating is switched off
- Pipes do not need to be off set
- Thermostatic TRV valves control temperature when central heating in use
- No need to use a T piece
- Clean, neat look

Cool white

TrioTone™, colour selectable and CCT (Correlated Colour Temperature) mirrors allow you to set the perfect colour temperature to match your bathroom decor, mood or the time of day.

Activate with simple tap or swipe gestures. Integrated touch and infra-red sensors offer simple on/off and feature control.

Integrated demister pads keep the glass steam free by gently heating the mirror from behind to ensure a clear reflection.

Using electrical equipment in bathrooms or wetrooms has always needed care to ensure safety. The IET Wiring Regulations (18th Edition) have identified particular zones within the bathroom to indicate what type of electrical equipment can be installed.

Please note this image is a guide to electrical zones within bathrooms, you should always review manufacturers instructions for suitability with the current electrical regulations BS7671 and if in any doubt consult a qualified professional.

ZONE

- 0** Inside the bath or shower. Must have a minimum rating of IP67 and must be below voltage (12V max.)
- 1** The area above the bath or shower to a height of 2.25m from the floor. Minimum rating of IP44. If the fitting is 240V a 30ma RCD must also be used to protect the circuit in this zone.
- 2** The area stretching to 60cm outside the bath or shower and 60cm from water outlet of sink. An IP rating of at least IP44 is required.

OUTSIDE ZONES - Anywhere outside zones 0, 1 & 2 where water jets are not used for cleaning purposes, the general rules of BS7671 apply.
